

CERTIFIED SCRUM PRODUCT OWNER®

Leading Innovation through Agile Projects

Are you charged with leading an Agile Development Team with Scrum as its Product Owner? Are you striving to create a great product or service? Are you looking to improve the performance and productivity of your Scrum Development Team? Do you need to accurately plan, estimate and forecast the work of a Scrum Team? If so, this is the course for you!

To lead a Scrum team, you need practices that go beyond Scrum. In this 3 day course, Certified Scrum Trainer and experienced Product Owner Peter Stevens will share with you the mindset, established 'best' practices and latest techniques you need to lead Scrum teams effectively to create great products.

THE FACTS

Topics:

- Understanding Scrum: How and Why Scrum Works
- Your rights & responsibilities as Product Owner
- Articulating clear visions with measurable business objectives
- Describing and prioritizing stakeholders
- Expressing requirements as testable outcomes
- Prioritizing new product development, maintenance and non-software work
- Planning releases and sprints
- Tracking and reporting outcomes
- Understanding Agile Practices: User Stories, Personnae, Estimating, Release Planning, Story Points, Definition of Done
- Blend Scrum with Kanban, Lean Startup and other lean methods
- What you can do to create a high-performance development team

Goals:

- After completing this course, you will have the tools to envision, ideate, create, budget, plan, schedule, quote and develop an innovative product and deliver it to your customers!

Duration:

- 3 Days

Language:

- This course is offered in English on request or German if all participants agree.

Prerequisites:

All participants will be asked to prepare by reading a 10 or 15 page introduction to Scrum. During the course, you will have the opportunity to refine your product idea into a vision into a minimum viable product – so bring ideas of what you'd like to create!

The following books are recommended as preparation:

- User Stories Applied; Mike Cohn
- Agile Estimating and Planning; Mike Cohn
- Scrum. Produkte zuverlässig und schnell entwickeln; Boris Gloger; Hanser 2008
- The Lean Startup, Eric Ries

Certification:

All participants who actively participate in the entire course receive a confirmation of participation and qualify for Certification as a [Certified Scrum Product Owner®](#) by the [Scrum](#)

Supplement:

- Learn to apply Lean Startup and Agile Innovation to your company or product!
- Learn to lead a highly effective Scrum Team!

[Alliance](#)[®]. An additional test may be required. A membership in the Scrum Alliance is included in your course costs.

PDU:

Members of the PMI can claim 22 PDUs for successful completion of this course and apply this course towards meeting the requirement of the ACP.

Partner:
